Subject: **Notice of Complete Application for NPDES Permit Number TN0057983**
Aerojet Ordnance Tennessee
Jonesborough, Washington County, Tennessee

Dear Mr. Christian:

The Division of Water Resources (the division) acknowledges the receipt of a permit application in our office on July 1, 2015. We have reviewed the application for completeness in accordance with TDEC rule 0400-40-5-.05 (2) and deemed your application to be complete, *Permit Application, Issuance*, state, in part:

"The applicant will be provided notice of completeness of the application and re-submitted material within 30 days of a determination that such material constitutes a complete application. This provision does not preclude the commissioner from later requesting additional material that subsequent to the notice of completeness is determined to be necessary for permit processing."

Our review of the individual NPDES permit application showed that you have submitted all the information required for the permit reissuance. If your complete application was mailed to our office 180 days prior to the current permit expiration date of December 31, 2015, and the permit is not reissued by that date, discharges from the facility will be automatically authorized through administrative extension of the current permit.

If you have questions, please contact the division at your local Field Office at 1-888-891-TDEC; or, at this office, please contact Mr. Gary Davis at (615) 532-0649 or by E-mail at Gary.Davis@tn.gov.

Sincerely,

Vojin Janjić
Manager, Water-Based Systems
